SKILLS

Languages C/C++ STL, Java, React, Flutter, Node.js, Python, Golang

Tools Github, Postman, Figma, VsCode, GlT

Soft Skills Problem Solving, Team Collaboration, Communication

PROJECTS

School Management Platform (Web + Mobile) [Link](#) Jun '24 — Present

- Engineered a full-stack, multi-tenant school platform used across admin workflows (students, staff, academics, fee payments, communication, events), with role-based access and secure service boundaries.
- Built and maintained production backend/API architecture with secure authentication, validation, and reliable cross-module workflows; resolved critical frontend-backend contract issues through end-to-end debugging.
- Implemented and stabilized push notification delivery (announcements, homework, events, fees) and improved session/navigation reliability by fixing token refresh and idle-time route-freeze issues.
- Tech stack: Next.js, React, TypeScript, Node.js, Express.js, MongoDB, Firebase Cloud Messaging (FCM), REST APIs, Git/GitHub.

Government Project: Haryana Sepak Takraw Association (Sports Federation Platform) [Link](#) Dec '25 — Feb '26

- Built and delivered a **role-based digital platform** for a **government sports association** (Admin, Player, Coach, Referee), replacing manual registration/review with end-to-end online workflows (approval, resubmission, status tracking, profile management).
- Designed and implemented **secure identity and access flows** (JWT auth, password reset via phone + Aadhaar verification, protected routes, admin controls), plus document handling and profile/photo management for federation records.
- Developed core federation operations modules: **tournament and participant management, certificates/ID card generation/download, dashboard analytics, and centralized content/document management**, improving operational speed and auditability.
- Tech Stack: React, TypeScript, Vite, Node.js, Express.js, MongoDB (Mongoose), JWT, AWS S3, REST APIs, Tailwind CSS, Render.

CareConnect | Mobile Caregiving Booking App (Flutter) [Link](#) Dec '25 — Present

- Built a cross-platform **mobile app** using Flutter that lets families book verified caregivers for elderly home care on **hourly** and **full-day** plans.
- Developed the end-to-end booking journey: caregiver discovery and matching, real-time availability/slot booking, secure Stripe payments, and booking status tracking for a reliable user experience.
- Implemented scalable backend and data architecture with role-based access and cloud deployment, supporting caregiver profiles, appointments, and transaction records in production.
- Tech Stack: Flutter, MongoDB/PostgreSQL, Stripe, AWS/Firebase, Git, GitHub.

AWARDS

Secured 15th rank in the Code-A-thon Dec '23

Secured 12th rank in the Binary-Bits Oct '24

CERTIFICATIONS

Certificate in MERN Stack Development, CipherSchools Jul '25

Core Java Bootcamp (Zero to Hero), Udemy Feb '24

EDUCATION

Bachelor of Technology - Computer Science and Engineering, Lovely Professional University Aug '23 — Present
(GPA: 6.5) Punjab, India

Intermediate, St. Paul's School (GPA: 7.6) 2021 — 2023
Rourkela, Odisha

Matriculation, Carmel School (GPA: 8.5) 2019 — 2021
Rourkela, Odisha
