SKILLS

Languages Java, Python, Golang, C++, JavaScript

Frameworks & Libraries React.js, Next.js, Flutter, Node.js, Express.js

Databases PostgreSQL, MongoDB

Tools & Technologies Git, GitHub, Postman, Figma, AWS, Firebase

Core Concepts Data Structures & Algorithms, Object-Oriented Programming, System Design, API Development

PROJECTS

Sports Federation Platform | Haryana Sepak Takraw Association (Government Project) [Link](#) Dec '25 — Feb '26

- Developed and deployed a production-grade digital platform for a government sports federation, serving 200–500 active users
- Built role-based system supporting Admin, Player, Coach, and Referee workflows with secure access control
- Designed and implemented RESTful APIs with JWT authentication and Aadhaar-based identity verification
- Automated manual registration and approval workflows, significantly improving processing speed and reducing paperwork
- Developed modules for tournament management, participant tracking, ID card generation, and document handling
- Integrated AWS S3 for secure storage of user documents and media assets
- Tech Stack: React, TypeScript, Vite, Node.js, Express.js, MongoDB (Mongoose), JWT, AWS S3, REST APIs, Tailwind CSS, Render.

School Management Platform (Web + Mobile) [Link](#) Jun '24 — Present

- Developed a multi-tenant school management system handling student records, staff data, and fee workflows.
- Designed RESTful APIs with JWT authentication and role-based access control (RBAC)
- Integrated Firebase Cloud Messaging (FCM) for real-time notifications (homework, announcements, fees)
- Improved application stability by resolving session and token refresh issues
- Tech stack: Next.js, React, TypeScript, Node.js, Express.js, MongoDB, Firebase Cloud Messaging, REST APIs

CareConnect | Mobile Caregiving Booking App (Flutter) [Link](#) Dec '25 — Present

- Developed a cross-platform mobile application using Flutter for booking verified caregivers, supporting real-time availability and scheduling
- Handled concurrent booking conflicts using slot validation logic, preventing double bookings and ensuring data consistency
- Designed and implemented end-to-end booking system with slot selection, conflict handling, and status tracking
- Built RESTful backend services to manage users, caregiver profiles, and appointment workflows
- Integrated Stripe payment gateway for secure and reliable transaction processing
- Tech Stack: Flutter, MongoDB/PostgreSQL, Stripe, AWS/Firebase, Git, GitHub.

CERTIFICATIONS

Certificate in MERN Stack Development, CipherSchools Jul '25

Core Java Bootcamp (Zero to Hero), Udemy Feb '24

AWARDS

Ranked 15th among 500+ participants in Code-A-thon Dec '23

Solved 200+ Data Structures and Algorithms problems on LeetCode

EDUCATION

Bachelor of Technology - Computer Science and Engineering, Lovely Professional University (GPA: 6.5) Aug '23 — Present
Punjab, India

Intermediate, St. Paul's School (GPA: 7.6) 2021 — 2023
Rourkela, Odisha

Matriculation, Carmel School (GPA: 8.5) 2019 — 2021
Rourkela, Odisha
